I also stumbled across a couple sites that looked interesting, though I know nothing about them. So, you are one your with these.

Facebook Writing Jobs at www.facebook.com/freelancewritingjobs

Writer Access at writeraccess.com

Contract Agencies

I did a quick search for *technical writer* on the Adecco site, the results, 23 pages of technical writing positions. I know the jobs are out there. They just need qualified people to fill the seats.

Adecco

International - adecco.com and

US - adeccousa.com

Kelly Services kellyservices.com

Aerotek - An international company with locations in North America and Europe.

Spherion in the US spherion.com

The best thing I can recommend is to get online and see what is in your area. Do a quick Google search for *Contract Staffing Agency*.

Here's a great link from Snagajob.com, [Employment and Staffing Agency](#). It's full of great information.

Twitter and Facebook

My daughter actually came up with these. I think they are great.
